2022 Price Guide

Rescheduling and Cancellation Fees

Matthew Chambers Photography is a family owned business; while I offer very open availability and can accommodate most session requests if I'm not already booked I do limit the number of sessions I offer each month to ensure my client's receive the highest level of service.

While not terribly common, last minute cancellations, repeated rescheduling of sessions, and clients who schedule then do not show up for the session can have dramatic effects on my ability to keep my pricing among the lowest for professional photographers in the area.

While I certainly understand that rescheduling or cancelling may sometimes be necessary the following fees apply to all non-wedding/non-event sessions and assist in limiting the impact these events have on my other clients and are similar to fees charged by other photographers in the area.

- Rescheduling Fee
 - 1st Reschedule:
Greater than 30 days before your session, \$25,
Less than 30 days before your session, \$50.

 - 2nd Reschedule:
Full session cost and reschedule fee for each reschedule must be paid in advance.

- Cancellation Fee \$50 or Loss of Deposit (Whichever is greater.)

Lastly, and rarest of all, are situations in which I arrive to provide service and the client either does not show up, or has to cancel the session after I have arrived. The most common of these is sessions where the client forgets their scheduled time, remembers their scheduled time and cannot attend without notice, and instances of runaway brides and grooms. In these instances, while I sympathize, payment in full is due as agreed.

Wedding/Event reschedules are addressed in your signed contract; exceptions will be made on a case by case basis at the discretion of the owner.
