2025 Price Guide

Rescheduling and Cancellation Fees

Matthew Chambers Photography is a family-owned business; while I offer very open availability and can accommodate most session requests if I'm not already booked, I do limit the number of sessions I offer each month to ensure my clients receive the highest level of service.

While I certainly understand that rescheduling or cancelling may sometimes be necessary the following fees apply to all non-wedding/non-event sessions and assist in limiting the impact these events have on my other clients and are similar to fees charged by other photographers

Portrait, Boudoir, and Real Estate Sessions Reschedule/Cancellation Fees

1st Reschedule/Cancellation:

Greater than 30 days before your session, \$50,

30 days or less before your session, \$75.

3 days or less before your session, \$150.

2nd Reschedule:

Full session cost and reschedule fee for each reschedule must be paid in advance.

Failure to attend session without notice. Payment in full is due, including travel fee.

In the event of cancellation or rescheduling the client is responsible for payment for any of charges incurred by Matthew Chambers for reservations, rental fees, purchase of items or equipment necessary for the completion of the client's session, deposits or pay to subcontractors, and related expenses.

Wedding/Event Reschedule/Cancellation Fee

Cancellations greater than 30 days prior to the date of service shall result in the loss of deposit and any monies paid or 50% of the session cost, whichever is greater.

Cancellations less than 30 days prior to the date of service shall result in the total amount of the contract being due.

In the event of cancellation or rescheduling the client is responsible for payment for any of charges incurred by Matthew Chambers for reservations, rental fees, purchase of items or equipment necessary for the completion of the client's session, deposits or pay to subcontractors, and related expenses.
